TRANSPARENT PVC SHEETS

Type	Description	Key Features	Common Applications	Available Thickness & Width
Clear Rigid PVC Sheet	A stiff, unplasticized transparent sheet with high impact strength	Excellent clarity, chemical resistance, flame-retardant, printable	Machine guards, signage, displays, partitions	Thickness: 0.5mm–30mmWidth: up to 1.5m
Flexible Transparent PVC Sheet	Soft, plasticized PVC used where flexibility and transparency are needed	High flexibility, smooth surface, weather & UV resistance	Curtains, table covers, protective films	Thickness: 0.2mm–5mmWidth: 1m–2m
Transparent PVC Film Roll	Very thin and flexible film in roll form	Used for lamination, packaging, protective layers	Packing, stationery covers, ID card lamination	Thickness: 0.05mm–0.3mmWidth: 500mm–1500mm
Anti-Static PVC Sheet (Transparent)	Transparent sheet that prevents dust accumulation through	Electrostatic dissipation, smooth glossy finish, durable	Cleanrooms, electronics, static-safe partitions	Thickness: 0.3mm–5mmWidth: 1m–1.5m
Frosted Transparent PVC Sheet	Semi-transparent with a matte surface	Light diffusion, scratch-resistant, decorative use	Shower partitions, furniture covers, printing	Thickness: 0.3mm–3mmWidth: up to 1.5m
UV-Stabilized Transparent PVC	Engineered to resist yellowing and degradation under sunlight	High clarity under UV exposure, long outdoor life	Greenhouses, windows, external covers	Thickness: 0.5mm–10mmWidth: up to 1.3m
Cold Resistant PVC Curtain Sheet	Flexible PVC designed for low temperature environments	Remains soft at -20°C to -40°C, energy-saving barrier	Cold storage rooms, freezer door curtains	Thickness: 1mm–5mmWidth: 200mm/300mm strips
Embossed Transparent PVC Sheet	Has a textured/printed surface while remaining transparent	Anti-slip, decorative, flexible	Furniture protection, stationery, packaging	Thickness: 0.2mm–2mmWidth: 1m–1.5m
Transparent Colored PVC Sheet	Transparent with tinted color options (blue, grey, bronze, etc.)	Maintains clarity with added color, UV stabilized options available	Partitions, decoration, safety barriers	Thickness: 0.5mm–6mmWidth: up to 1.5m
